St. Philip Neri

PRIMARY & JUNIOR SCHOOL

SCHOOL PROFILE · 2027

Together we achieve *the extraordinary.*

A CBC school in Joska, Machakos County, built on one idea: every child's talents deserve room to grow — academic, social, physical, and creative.

A NOTE FROM OUR HEAD OF SCHOOL

A warm welcome to the Neri family.

> *“Every learner here is known by name — not just by their teacher, but by our whole school community.”*

Mr. Paul Manza
HEAD OF SCHOOL

Choosing a school for your child is one of the most important decisions a family makes, and I don’t take it lightly that you’re considering ours.

We pair a fully implemented CBC curriculum with genuine personal attention, because we believe a child’s confidence and character deserve to grow just as much as their grades.

I would love for you to visit our campus, meet our teachers, and see a typical school day for yourself. Our doors — and our WhatsApp — are always open.

Mr. Paul Manza
HEAD OF SCHOOL

Academic Excellence

A fully implemented CBC curriculum, personalised to how each learner grows.

Strong Character

Respect, resilience and responsibility, built into everyday school life.

True Community

Every family known by name, in a safe and vibrant learning environment.

ABOUT THE SCHOOL · EST. 2013, JOSKA, MACHAKOS COUNTY

A launch pad, not just a classroom.

> *"We are dedicated to preparing every child for their vital role in a fast-changing world."*

Situated in the tranquil, secure surroundings of Joska, Machakos County, St. Philip Neri School opened its doors in 2013. Our vision rests on a simple premise: high educational achievement and a genuinely supportive, engaging environment are not a trade-off — a child needs both to thrive.

We provide an academic home that is nurturing as well as intellectually stimulating, with a deliberately global outlook. Students leave our care confident, open-minded, and respectful — ready to take on real responsibility as engaged citizens.

Our educational services begin as early as age 3 and run continuously through primary and junior school. Throughout, the focus stays the same: a safe, happy, inspiring environment that builds academic ability alongside social responsibility, character, and respect.

We have fully implemented the Competency-Based Curriculum (CBC), which reflects our own approach to teaching — personalised, adaptable, and responsive to how each learner actually learns. Students progress at their own pace, building a genuine grasp of each skill before moving to the next.

It's this combination — rigorous academics, real personal attention, and a wide-open view of the world — that we mean when we say a St. Philip Neri education prepares a child for more than exams.

CURRICULUM & FACILITIES

From Montessori kindergarten to a full CBC pathway.

Early Years

Montessori-guided kindergarten

Purpose-built play spaces and carpeted classrooms give young children a warm, away-from-home start, taught by staff trained in early-years pedagogy.

From PP1

Competency-Based Curriculum

A seamless transition into CBC, emphasising personalised learning so each learner masters a skill fully before progressing.

Throughout

Technology-integrated learning

Classrooms fitted with projectors, interactive smart boards, and dedicated computer rooms with high-speed internet and an online library.

On campus

- Two well-equipped libraries — one for kindergarten, one for primary & junior school
- Modern science laboratory
- Robotics & coding lab
- Art studio and woodwork workshop
- Music rooms with a range of instruments
- Two computer rooms with high-speed internet

BEYOND THE CLASSROOM

Fifteen-plus ways to discover a talent.

Research consistently shows that students in co-curricular activities achieve higher grades and have a more positive overall experience — so we treat clubs as core to a child's education, not an add-on.

- **World Scholars Club**
- **Copernicus Maths Club**
- Chess
- Skating
- Scouting
- Martial arts
- Ballet & dance
- Drama club
- Music & choir
- Neri Stallions Football
- Neri Little Dolphin Swimming

Competing beyond our gates. Our World Scholars and Copernicus Maths clubs prepare learners to compete in national olympiads against some of the country's top schools — real exposure to peers from different backgrounds, and real preparation for a competitive world.
